Stone Carpet Properties

Jointless

100% Ultraviolet (UV) Rays resistance

Resistant to water and all kinds of chemicals

Suitable for disabled persons' walking

Water discharge capacity of 500 lt/m² per minute

Flame retardant

Breathing material

Max. load resistance: 42-45 tons

Thermal resistance: between- 40 ° C and + 120 ° C

Resistant to weather conditions

Colorfastness and no fading over time

Odorless

Stainless

Anti-slip

Its polymer feature ensures excellent grip for light and heavy vehicle tires and shoes

Maximum acoustic and thermal insulation

Easy maintenance and cleaning

Always looks clean

Suitable for underfloor heating

Suitable for aesthetic and custom designs

Available to create infinite colors, patterns, curves, and emblems

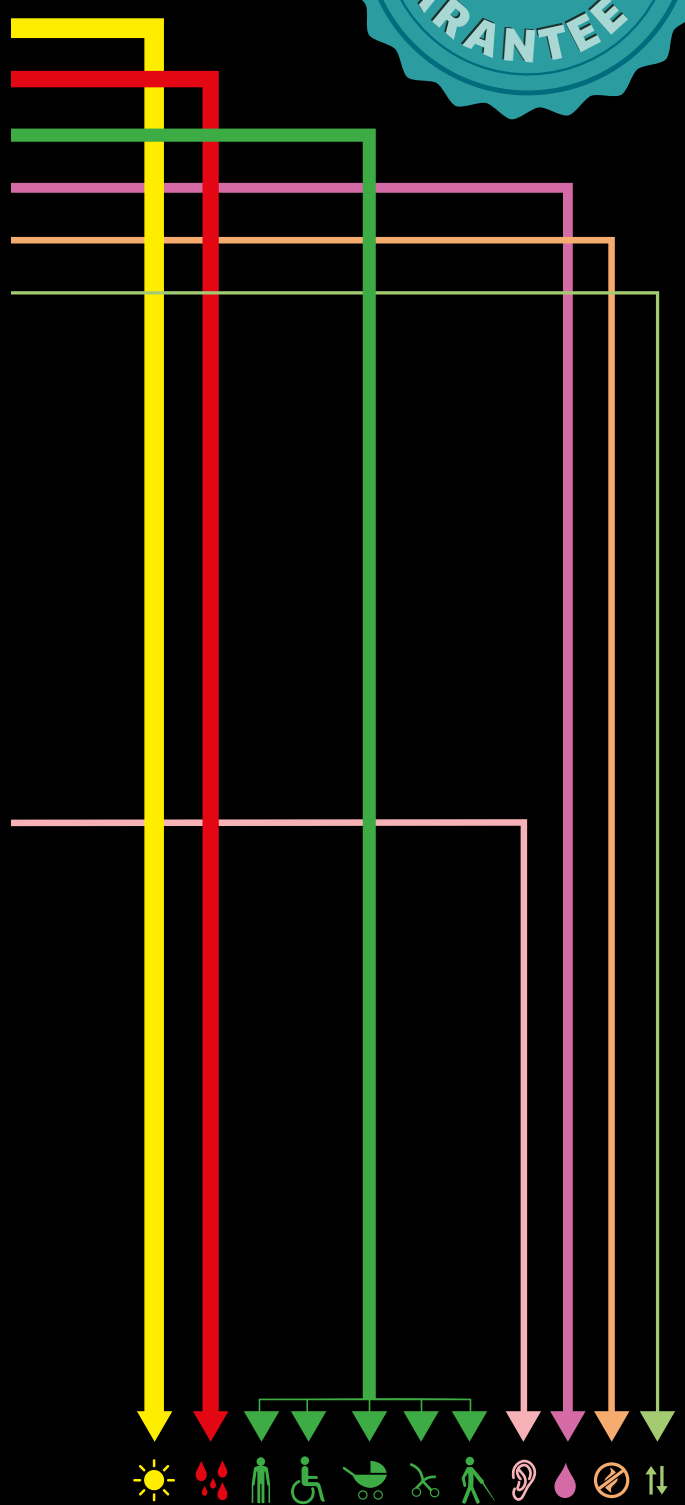

Resistant to moisture, humidity, and saline water

Antifouling, mud-proof material

No hazard to human health and environmentally-friendly

Maintains its color and vividness

High-quality guaranty (10 years)

We care about making happy and being happy while doing our job 

Infinite Options of Color

About Us

The founders of Anilo Stone Carpet have completed numerous stone carpet flooring applications in the Netherlands and all over Europe and they have the experience of almost 20 years in the field.

Anilo has the honor and is proud of bringing the stone carpet floorings which are quite widely used in Europe, to Turkey.

Daily Production Capacity of Anilo

500 tons

Anilo Stone Carpet is the largest manufacturer of the jointless and seamless wall and floor coverings in the region. Besides Turkey, it also exports to countries such as France, Russia, Azerbaijan, Kazakhstan, Qatar, the United Arab Emirates, Tunisia, Morocco, Algeria, Iran and the Schengen countries.

! The quartz stone is selected considering the seasonal climate changes, UV rays, humidity and marine salt ratio, pedestrian and vehicle traffic density of the area on which stone carpet will be covered, and the ratios of resin mixture are adjusted based on these specific values.

What is Stone Carpet?

Stone Carpet is a wall and floor covering product which is colored by using special techniques and produced by combining quartz stone granules of 0.8-1.2 mm, 1.5-2.5 mm and 2-3 mm with special resins to form a layer with a thickness of 6-8 mm.

What is Quartz Stone?

Quartz stone is a precious stone composed of minerals from crystal group. The hardness level of the quartz stone, which has the crystallization feature, is very high. It is very resistant to sudden changes in temperature.

The Advantages of Quartz Stone

- It facilitates mental and spiritual balance by touching the energy points in the human body due to its electrical properties.
- It facilitates emotional balance by stimulating brain functions.
- It stores positive energy and transmits it by enriching to the environment.
- It adjusts mental forms.
- Keeps the body fit, gives strength and vitality.
- Protects from negative situations such as anger, fear, guilt, and jealousy
- It nourishes and develops the feelings of love and compassion.
- It has positive effects on eye diseases.
- It has positive effects on situations such as panic attack, stress, and insecurity.
- It has the characteristic of collecting the negative energy in the environment in itself and transmits positive energy.

EXPERIENCE • COMPETENCY • INOVATION

High level corporate governance

Our Strategies Productivity

To become the most productive company in the floor covering sector,

To increase the product quality and to decrease the production costs within the scope of operational efficiency,

To be more efficient and effective in distribution channels and sales points by reducing the cost of sales.

! With our corporate R&D efforts, operational successes, and quality products, 2018 will be the year in which we will make our consumers happy.

Our Brand Investment

Delivering our strong brand to our consumers for reasonable prices,

Ensuring continuous improvement of our brand.

The Scope of Our Strategies

To achieve higher sales volume and increase in income, and to increase operational profitability in the activities of Anilo Stone Carpet,

To expand to be the regional power,

To continue corporate governance at the best level,

To achieve the results that make all of our franchisees and stakeholders happy,
